

# Your Partner

for Development and Manufacture  
of Cell & Gene Therapy

Experience and quality from  
discovery to commercialization

## Why Choose Us?

For more than 20 years, CCS has been pioneering advances in the research, development, and manufacture of cell therapies.

- + Unmatched procurement of apheresis and cord blood products
- + Access to our expansive network of NYBCe resources
- + Robust process & analytical development
- + Regulatory consulting across all phases of development
- + Skilled staff and ready capacity at our accredited facilities
- + Collaborative end-to-end partners

Cell Sourcing and  
Apheresis

Process & Analytical  
Development

cGMP, Fill/Finish and  
Cryopreservation
